Enthusiastic and self-motivated frontend web developer currently pursuing a Bachelor's degree in Computer Science (6th semester). Passionate about building responsive, user-friendly websites using modern web technologies. Eager to contribute to Studio showed by applying skills in HTML, CSS, JavaScript, and React. Ready to grow through real-world projects and team collaboration.

Projects

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase my work. The site is fully responsive and deployed via GitHub Pages.
- Built a functional calculator that performs basic arithmetic operations with a clean and interactive user interface.
- Created a digital stopwatch featuring start, stop, and reset functions, utilizing JavaScript's timer methods.
- Developed a browser-based Tic Tac Toe game for two players, with implemented game logic, winning conditions, and reset functionality.
- Created a Rock Paper Scissors game that allows a user to play against the computer. Implemented random logic for computer choices and used basic animations to enhance interactivity.
